MAX WILD – WHO WE ARE.

Max Wild GmbH is a family business through and through. Led over the years by generations of the Wild family, the construction company, which began in 1955 as a small fleet of vehicles under Max Wild Sr., is now one of Germany's leading partners in construction and logistics. Our family has now grown to include over 900 "experts without borders". Together, we carry forward the tradition of Max Wild, continuing the company's success and building on its innovation. With dedication to our craft, our customers, and a shared vision, we continue to build on this legacy.

At Max Wild, our principles are an integral part of everything we do. This can be seen in how we approach each and every project we take on, combining passion with expertise from start to finish. This passion is our driving force and inspires us to deliver the best possible results for our customers. Because as a responsible construction company, we never lose sight of one thing: Whatever the customer project, we are always creating something bigger—for families, communities, cities, and for the common good.

SAFE AND RELIABLE — YOUR LOAD, OUR PRIORITY.

Max Wild is an international logistics company specializing in transportation, heavy goods storage and project logistics. Our experts ensure safe and reliable delivery to virtually any destination worldwide, exactly when you need it. Our highly trained team handles all the necessary permits and makes all the arrangements to get the job done. Seamless coordination is a vital part of this process and we work closely with our customers and partners to meet every deadline without compromise.

MAKING LIGHT WORK OF HEAVY LOADS — THAT'S WILD.

HEAVY HAULAGE AND SPECIALIST TRANSPORT SOLUTIONS

HEAVY HAULAGE AND SPECIALIST TRANSPORT SOLUTIONS.

Max Wild operates an extensive fleet of vehicles, enabling us to handle regional, European, and worldwide transport projects with payloads of up to 500 tonnes. Our fleet includes state-of-the-art vehicles equipped with the latest technology. To ensure maximum safety for your transport loads, our experts carry out feasibility tests on the equipment used in advance. And you won't need to worry about national or international freight forwarding, including all the necessary documentation and customs clearance – we've got it covered.

We make sure your freight reaches its destination quickly and reliably

- Regional, European and worldwide
- In-House transport permit and escort vehicle service
- Customised consultation and planning
- Larger, wider, heavier vehicles

MODULAR TRANSPORT SERVICES BY MAX WILD.

Do you need a prefab module delivered to your building site? We've got you covered! Whether concrete, brick, or timber – residential or commercial – we have the expertise to get the job done!

We offer you a flexible, all-in-one solution.
Simply choose the services you want us to take care of.

- Site and access inspection including detailed site report
- Comprehensive coordination with authorities, including resolving all outstanding issues
- Arrangements for road closures or cordons (if required)
- Transport in state-of-the-art fleet of vehicles and experienced drivers
- Mobile crane on-site

PROJECT LOGISTICS, CUSTOMS CLEARANCE AND INTERNATIONAL COORDINATION.

Max Wild is your one-stop-shop for end-to-end logistics. We develop tailor-made solutions and offer customised, one -to-one consultation, always with a view to making optimum use of your resources. From storage and packaging to assembly, we provide all the services that are important for you and your project.

- Our services**
- Holistic planning and project management
 - Assembly services (incl. advice on vehicle choice, lifting and hoisting technology)
 - Company and production relocation
 - Industrial relocation and industrial assembly
 - Route inspections
 - Transportation incl. customs clearance
 - Air freight (organisation)
 - Sea freight (organisation)
 - Expert advice and services for all your packaging needs
 - Packaging service at our own heavy-load warehouse or on-site at your facility
 - Safe and reliable unloading at your customer’s premises, no matter where!

„Our team knows that every challenge has a solution.“

Jochen Wild
Managing Director

FROM PLANNING TO
TRANSPORT.

WITH THE EXPERTISE OF OUR
HEAVY MOVE PROFESSIONALS,
WE CAN HELP YOU DO JUST THAT!

Our flexible Fluidts® shunting system is the ideal solution for unique challenges. With careful planning, we can lift, lower and move heavy loads from a wide range of sectors. Get in touch to find out more!

HEAVY HAULAGE TRANSPORT IN SAFE HANDS.

ESCORT VEHICLE SERVICES

DELIVERING YOUR LOADS. **YOU CAN TRUST.**

With our own BF4 escort vehicles, we have taken our services to the next level. Our fleet is equipped with the latest technology, including variable message signs (RGST 2015), meaning we can escort your oversized and heavy goods without relying on external services. Our new escort vehicles not only ease the burden on the police but also help you plan ahead, ensuring deadlines are met on the dot. And with our team of highly trained professionals who all hold valid licences for BF4 vehicles, you can rest assured that your transport is in safe hands.

At Max Wild, we know that every oversized and heavy goods transport requires rigorous planning to ensure that everything runs smoothly. That's why we put you, the customer, at the heart of everything we do, agreeing on all the important transport details upfront and providing comprehensive expert advice to guarantee everything goes to plan.

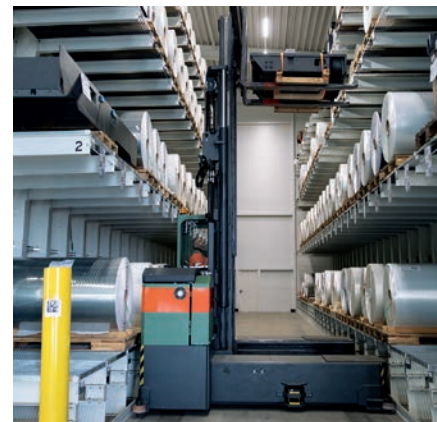

THE BACKBONE OF OUR LOGISTICS SERVICES.

HEAVY CARGO AND WAREHOUSE LOGISTICS.

Whether you need temporary storage or want to rent a dedicated space, we have the solution for you!

- Total storage area: 14,000 m²
- Ridge height: 14 m
- Indoor cranes with load capacities of 63 t, 16 t and 10 t
- Height-adjustable loading ramp
- 2,000 rack spaces in cantilever racking (load capacity up to 5 tonnes/shelf meter)
- Various forklifts with up to 32 t load capacity
- Assembly areas with underfloor heating and other technical arrangements

CONSTRUCTION SITE TRAFFIC. QUICK AND EASY.

DAILY APPROX.

10.000 t

CONSTRUCTION RUBBLE,
GRAVEL, SOIL, STONES
AND MUCH MORE.

BULK MATERIALS TRANSPORTATION AND CONSTRUCTION TRAFFIC.

With 80 trucks dedicated to construction site traffic, Max Wild is your trusted partner for transporting bulk materials – be it earth, stones or humus – from earthworks, road construction or demolition sites. Our fleet is constantly on the move, delivering to and from construction sites and transporting materials to our gravel pits and recycling centres. We transport your bulk material to where you need it. Are you a construction company? Look no further – Max wild is the perfect partner for all your transport needs.

Our trucks are equipped with the latest technology, including a fully thermally insulated trailer for temperature-sensitive goods, complete with continuous temperature monitoring sensors. We are committed to efficiency and driver comfort, prioritising both the environment and the well-being of our drivers in all our operations.

ROAD SWEEPER. POWERFUL CLEANING, READY FOR RENT.

Our sweeper is a high-tech machine that offers so much more than just sweeping. From dual-side brushing to high-pressure cleaning, it tackles dirty and moss-covered surfaces quickly and effectively – whether it's roads, yards or halls. When sweeping alone isn't enough, we use high-pressure road and hand-lance cleaning (both at 250 bar) to deliver a deep and thorough clean for paved surfaces. Our sweeper is also perfect for preparing surfaces for road repairs. We take care of everything, disposing of sweepings professionally and in full compliance with the Recycling Management Act. And best of all: this powerful cleaning machine is available for rent. We are committed to efficiency and driver comfort, prioritising both the environment and the well-being of our drivers in all our operations.

AREAS OF APPLICATION

- Road sweeping (dual-sided)
- Yard sweeping
- Hall cleaning
- Surface preparation for road repairs
- High-pressure road cleaning (250 bar)
- High-pressure hand-lance cleaning (250 bar)
- Paved surface cleaning

ROAD SWEEPER

TECHNICAL SPECIFICATIONS

- Hydrostatic drive (infinitely variable speed control)
- High-pressure system (250 bar)
- Rear suction system
- High-pressure front wash bar
- Telescopic, foldable front brush (on both sides) for weed removal and pre-sweeping in front of the front axle
- Adjustable sweeping width (650 to 5,000 mm)
- Leaf suction system
- Suction hopper for coarse materials

AREAS OF APPLICATION

- Suction of solid and loose material of any kind
- Suction of flat roof fillings, green roofs and suspended ceilings
- Gravel removal from flat roofs
- Cleaning ditches, road gullies, verges and central reservations, including in rail areas
- Exposing tanks, foundations (drainage) and pipes
- Efficient tank and container drainage
- Tree and root restoration, including soil replacement without root system damage

WILD AND POWERFUL – SUCTION EXCAVATION MADE EASY.

SUCTION EXCAVATOR BY MAX WILD

Unlike conventional excavation, which often risks damaging existing pipe systems and requires a lot of space for the vehicles and equipment, our suction excavator technology allows for quick, efficient material removal with minimal disruption. Whether it's solid or loose material such as stones, gravel, sand and soil, or mud, water and snow, our suction excavator can handle it. This technology significantly reduces the risk of damage to supply lines and surrounding structures, unlike excavation with traditional tools like shovels or jackhammers.

Our suction excavator boasts a container volume of approx. 12 m³ and operates on the basis of a patented suction method. The system comprises a power fan that creates an air flow to generate maximum negative pressure. The suction hose, which can be moved in three dimensions, draws loose material directly into the collection chamber, where it is safely stored. The air is then cleaned before being released.

SUCTION EXCAVATOR

CONTAINER SERVICE. PROPER DISPOSAL.

Max Wild is your trusted partner for the professional disposal and recycling of mineral waste and residual materials. Whether for private or commercial use, we offer a range of container sizes tailored to your needs, ensuring seamless and responsible waste disposal.

- Various types of container in several sizes
- Flexible and reliable partner for private and business customers
- Quick and easy ordering via our online store
